### America's conversation radio *Head-On with Bob Kincaid*

*"A Liberal Light In The Conservative Darkness"*

**M-F 6p.m. - 9p.m. EST**

What the H.O.R.N. is doing is adding a new dynamic to traditional talk radio. We call it Conversation Radio - instead of the traditional format of focusing on the host, and what the host brings to the show, we focus on the callers. They are, after all, where the 'talk' in talk radio comes from. This approach has helped to create community among all our shows. Listeners who find us return and listen daily, and we have started what we believe to be a paradigm shift in this genre by making the callers the most important part of our programming.
